Packaging 1Lx20/5Lx4/20Lx1/D/M

Example

■ Paint ■ shutter ■ concentration : 100% ■ standing time : 5sec~3min.

Graffiti removal

General data :

Hou to use

- For ink, paint, adhesive, degreasing, cleaning by dipping is effective.
The immersion time varies depending on the degree of soil.
 - In the case of graffiti removal, it is effective to wash by applying agitation such as brushing after spraying on, then wiping off or rinsing spray.
 - In the case of hand wash, please wipe off the dirty part or immerse in wash liquid such as **E-CLEAN(SC)**
 - When rinsing without wiping etc., please be sure to rinse with diluent such as **E-CLEAN(SC)** (optional).
- * Because of oil soluble liquid, please use in stock solution.
